## DETAILED ACTION

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 1-8 are is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Regarding claim 1, the phrase "such as" renders the claim indefinite because it is unclear whether the limitations following the phrase are part of the claimed invention. See MPEP § 2173.05(d).

Claim 1 is also indefinite in the use of the phrase "essentially composed" of particular mineral components. It is not understood how the phrase limits the composition, since other ingredient such as sugars and fat are most likely in the extract. If one wants to say that the extract contains particular minerals then the usual phrase would be "mineral components consisting essentially of ....".

Claims 4 and 9 are indefinite in the use of the phrase "to obtain an extracted liquid ", when no step of removing the beans from the liquid is shown. Also, the claim is indefinite in that it lacks a liquid ingredient so that one would have an extracted liquid. No ingredient such as water is seen to be added to the beans in order to make a liquid, which would contain the minerals, etc. Probably, the limitations of claims 4 and 5 should be combined.

Claim 4 is indefinite in that there is no antecedent basis for "the adjusted liquid".

***Claim Rejections - 35 USC § 102***

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

Claims 1-4 are rejected under 35 U.S.C. 102(a) as being anticipated by Kimura (2000189123A).

Kimura et al. disclose a composition containing adzuki beans, made by roasting a mixture of soybeans and adzuki beans, and extracting then at 90 C for 20 minutes with an aqueous solvent (abstract). The extract must contain the claimed minerals in claims 1-3 because nothing has been removed from the extract.

***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 4-6 are rejected under 35 U.S.C. 103(a) as being unpatentable over Kimura et al.

Kimura et al. disclose a composition containing adzuki beans, made by roasting a mixture of soybeans and adzuki beans, and extracting then at 90 C for 20 minutes with an aqueous solvent (abstract). The extract must contain the claimed minerals because nothing has been removed from the extract. Claim 4 differs from the reference in adjusting the liquid by dilution and further processing it to obtain a canned product and aging it. However, nothing new is seen in canning a liquid, which is the usual method of preserving a liquid. Again can be seen as letting the drink stay in the can

until it is used. Therefore, it would have been obvious to make a composition as disclosed by Kimura et al. and to further process it in the known manner.

The further limitation in claim 5 of boiling for 20 minutes is shown by the reference (abstract). The claimed minerals would have been extracted, as the process is the same. Therefore, it would have been obvious to make the composition by heating as claimed.

The limitations of claim 6 have been shown by the process described for claim 4 because nothing has been added or removed from the composition. Therefore, it would have been obvious to make a composition as claimed.

***Allowable Subject Matter***

Claims 7 and 8 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Claim 9 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action.
